“ Robert. So many memories come to mind. We shared with each other in our talks. Growing up in our teen years, the walks, school, and just life in general. Sharing God with you was the most important time for us as friends. Thank you for opening up & sharing your life with me. Me & my sister truly loved you as a brother. I was so proud of your accomplishments Robert. And no matter the size or strength of the task, you did it brother! And that's what was most important. You have gained your wings to be with your daughter & other love ones gone before you. Now, rest in peace. Love ya always Robert Elkins.
